RATUL **KOLEY**

FULL STACK DEVELOPER / TEAM LEAD

Kolkata, India • +91 7602497859 • ratuljob657@gmail.com

PROFILE

Highly analytical Full Stack Developer and Team Lead with proven experience architecting and deploying enterprise-scale applications using **.NET Core, C#, Microservices, React, Angular, Azure, Docker, and SQL technologies**. Adept at leading cross-functional teams, driving high-level system design, implementing advanced AI modules, and delivering secure, high-performance solutions that align backend architecture with seamless user experiences.

CORE SKILLS

Backend — .NET Core, C#, Node.js, Express.js, EF Core, REST APIs, Microservices Architecture, Python

Frontend — Angular, React.js, React Native, JavaScript (ES6+), HTML5, CSS3

Database — SQL Server, MySQL, PostgreSQL, Stored Procedures, ORM

Cloud & Protocols — Azure, Docker, Linux, CI/CD Pipelines, SignalR, WebSockets, Git

Testing & Tools — xUnit, Postman, Agile/Scrum Methodologies

PROFESSIONAL EXPERIENCE

Xcelcure Technologies LLP | ***Full Stack Developer / Team Lead*** **MAY 2023 – PRESENT**

- **Lead and mentor** a cross-functional team of 5–6 developers using Agile processes across 2–3 sprint cycles per month.
- **Drive system design** and project management to architect a multi-tenant SaaS Hospital Management System (HMS) serving 10+ institutions.
- **Built 500+ high-performance REST APIs** using .NET Core, Node.js, and Express.js, improving data access speeds by 50%.
- **Migrated legacy systems** to modular .NET 8/9 microservices, boosting team development productivity by 40%.
- **Engineered a Laboratory Information System (LIS)** integrating 3+ diagnostic machines across web and desktop layers.
- **Implemented advanced AI features**, including OCR form parsing and a diagnostic engine improving doctor decision speeds by 25%.
- **Secured enterprise architectures** via data encryption, secure CMS storage, and JWT/MSAL token-based authentication.
- **Streamlined real-time functionality** using SignalR/WebSockets, automated CI/CD, and Linux deployments at 99.9% uptime with 85%+ xUnit coverage.

KEY PROJECTS

Hospital Management System (HMS)

SaaS Multi-tenant Backend & LIS | .NET 8, MySQL, Azure, MSAL, WebSockets, SignalR, Stored Procedures

Architected modular microservices for 10+ hospitals. Integrated web/desktop layers linking lab machinery with central databases; utilized encrypted data handling to secure medical records.

MAPS Edu Global Platform

Global Education Platform | .NET 9, SQL Server, Angular, JWT, API Gateways, CI/CD, CMS

Built full-stack infrastructure for 5,000+ users across 3 continents. Integrated AI-based OCR engine, secure CMS storage, and real-time notifications; cut core API response times by 55%.

Ambulance Fleet Management Application

Geospatial Tracking Backend | Node.js, Express.js, MySQL

Designed backend architecture and optimized schemas processing live geospatial data for real-time vehicle tracking and emergency dispatch.

Enterprise Modules

- **Restaurant Management:** Streamlined billing, inventory, and digital ordering workflows.
- **HRMS & Visitor Tracking:** Engineered employee lifecycle trackers, payroll modules, and guest credential validation logs.

EDUCATION

Master of Computer Applications (MCA) – Full-Stack Web Development
Lovely Professional University | 2024 – Present

B.Tech in Electrical Engineering
Academy Of Technology | 2017 – 2021 | CGPA: 8.2

ADDITIONAL INFORMATION

Languages: English, Hindi, Bengali (Fluent) | **Notice Period:** 30 Days | **Core Competencies:** System Design, DevOps, Project Management, Cross-functional Leadership, Database Optimization
